

Waterbeach After School Play Scheme

STEM Activities

Thursdays 4.30pm – 5.00pm

From 5th November WASPS will be running a STEM activity every Thursday from 4.30pm to 5pm. These will be run and coordinated by an approved STEM Ambassador. The sessions will be delivered at the right level for our children and are meant to promote science, engineering, and technology. The sessions will involve hands-on experiments that facilitate learning and relevance to our daily lives.

Please inquire with the Club Manager should you wish to book a session: wasps.waterbeach@outlook.com
